

Sage Abra Benefits Connect

Sage Abra Benefits Connect is the innovative electronic business process outsourcing (BPO) option for Sage Abra HRMS that securely automates communication of employee benefits enrollment data with insurance and benefits carriers, eliminating the need to submit paper enrollment forms or create and maintain customized electronic file formats.

Both affordable and easy-to-use, Abra Benefits Connect helps simplify the back-end of the enrollment process between the employer and the carriers. When used in conjunction with Abra Benefits Enrollment, Sage Abra's employee enrollment portal, Abra Benefits Connect virtually eliminates the need for handling paper throughout the entire enrollment process, resulting in even greater labor and paper cost reductions.

- Eliminates the costly errors associated with duplicate data entry and 'missed enrollments' both during annual open enrollment periods and for employee changes throughout the year
- Eliminates the complexity and cost of communicating with multiple carriers
- Automatically extracts the benefits data from the Abra HR database and re-formats it to meet the specific requirements of each benefit carrier
- No IT support or customized programming needed, just an Internet connection
- Supports a variety of data formats including:
 - ASCII: fixed, comma delimited and tab delimited
 - XML: according to various schemas
 - EDI: ANSI X12 834 standard and extended (HIPAA)
 - Human readable reports: hard copy paper, fax, etc.
- Scheduler to trigger automatic data transmissions at regular intervals
- Transmission confirmations and status messages via email
- Secure, reliable and inexpensive
- Easy 5-step set-up process
- Supports virtually all benefit carriers in the U.S. (see partial list on back)

The Abra Benefits Connect client utility is compatible with Sage Abra Suite v7.5 and higher and Sage Abra HRMS v8.2 and higher.
